ENG HUB

TRUE OR FALSE?

It can be played competitively with a timer or individually as a speaking activity.

Competitive mode: Use a timer and take turns reading statements. Players quickly determine if each statement is true or false, providing an explanation for false statements. As soon as the timer goes off, the player who was answering at that moment earns a point. The winner is the player with the fewest points.

Individual mode: Students read the statements and decide if they are true or false. Discuss each statement as a group, with players sharing their responses and explanations for false statements.
